CONTENTS

OF

THE FIFTH VOLUME.

PART I.

ORIGINAL CONTRIBUTIONS.

	PAGE
1. WILLIAM BOWMAN, Ophthalmic Miscellanies.....	1
2. J. W. HULKE, Cases of Neuro-Retinitis associated with Kidney Disease.....	16
3. ERNEST HART, A Note on "Intermittent Glaucoma"	27
4. JONATHAN HUTCHINSON, On the effect of Injuries to the Fifth Nerve on the Nutrition of the Eye-ball and the Function of Sight	33
5. GEORGE LAWSON, Loss of the Left Eye from the Lodgement within it of a portion of a Gun Cap—Inflammation of the Stump more than seven years after the Injury, followed by Sympathetic Ophthalmia of the Right Eye—Clinical Remarks	42
6. GEORGE LAWSON, Treatment of Two Cases of Pterygium by Transplantation	45
7. A. SAMELSON, A Case of Pyramidal Cataract, with Microscopic Examination (by Professor C. SCHWEIGGER) of the Lens after Extraction	48
8. J. HUGHLINGS JACKSON, Observations on Defects of Sight in Diseases of the Nervous System	51
9. J. F. STREETFELD, A Lecture on Posterior Staphyloma, with Special Reference to Two Singular Cases.....	79
10. JONATHAN HUTCHINSON, Three Cases of Cancer within the Eye-ball, in which Symptoms of Acute Glaucoma were suddenly developed	88
11. JONATHAN HUTCHINSON, Two Clinical Lectures on Inflammation of the Optic Nerves	94

PART II.

ORIGINAL CONTRIBUTIONS.

1. J. F. STREETFELD, A Lecture on Posterior Staphyloma, with Special Reference to Two Singular Cases (<i>concluded</i>).....	113
--	-----

	PAGE
2. J. W. HULKE, Cases Illustrating Certain Pathological Conditions of the Vitreous Humour, with Remarks	123
3. GEORGE COWELL, Two Cases of Traumatic Cataract Possessing some Interesting Points of Diagnosis	131
4. JONATHAN HUTCHINSON, Clinical Notes on Paralysis of the Ocular Branches of the Cervical Sympathetic Nerve	135
5. GEORGE LAWSON, Burns of the Eye from Molten and Red-hot Metal	149
6. T. PRIDGIN TEALE, Jun., M.A., On the Relative Value of Atropine and of Mercury in the Treatment of Acute Iritis	156
7. JONATHAN HUTCHINSON, Clinical Lectures on Cases of Inflammation of the Optic Nerves (<i>continued</i>)	163

PART III.

ORIGINAL CONTRIBUTIONS.

1. J. W. HULKE, On Cases of Malignant Tumours in the Eye, or in Connexion with the Nerves.....	171
2. JONATHAN HUTCHINSON, On two Cases of Uniocular Amaurosis ...	185
3. GEORGE COWELL, Case of Cancer of the Eyeball, commencing in the Ciliary Region, and presenting itself through the Iris	188
4. JONATHAN HUTCHINSON, A Clinical Report on Herpes Zoster Frontalis Seu Ophthalmicus (Shingles affecting the Forehead and Nose)	191
5. JONATHAN HUTCHINSON, Miscellaneous Cases	216
6. W. NEWMAN, M.D., Spontaneous Rupture of Film of Capsule three months after Extraction of Lens	223
7. HENRY W. WILLIAMS, M.D., Remarkable Voluntary Power over the Muscles of the Eyeball, acquired by Training	223
8. Glaucoma with unusual features occurring in a young and healthy man (under the care of Mr. CRITCHETT).....	224
9. GEORGE COWELL, Note on an easy mode of distinguishing between Hypermetropia and Myopia in Ordinary Ophthalmoscopic Examination	226
10. WARREN TAY, Cases selected from Mr. Dixon's Out-patients	227

PERISCOPE.

1. DYER, Gymnastic Exercise of Accommodation in certain forms of Asthenopia—2. MCCARTHY and DOVE, Inflammations of the Eye during Cholera—3. F. M. MACKENZIE, Ulceration of the Cornea in Cholera—4. W. ZEHENDER, Proposal for a Simpler and Better Series of Test Lenses—5. SAMISCH, Embolia of One Branch of the Central Artery of the Retina—6. STEFFEN, Pediculi Pubis on the Eyelashes—7. C. R. AGNEW, On a Method of Removing

	PAGE
Secondary Cataracts or other Membraniform Obstructions from the Pupillary Region—8. L. HIRSCHMANN, Two Cases of a Peculiar Form of Progressive Amaurosis—9. KNAPP, On Obtaining an increased effect by the Strabismus Operation—10. SCHIESSGEMUSEUS, On the Pathological Anatomy of Anterior Staphyloma of the Sclerotic (Sclerectasia Anterior, Staphyloma Corporis Ciliaris)—11. JACOBSON, Two Cases of Intraocular Cysticerci with Dissections—12. BRAUN, On the Treatment of Hard Cataract—13. STEFFAN, Remarkable Case of Recovery from an extensive Incised Wound of the Eyeball—14. LANDSBERG, The Treatment of Muscular Asthenopia—15. STEFFAN, Additional Lachrymal Canaliculus	231

PART IV.

ORIGINAL CONTRIBUTIONS.

1. JOHN HUGHLINGS JACKSON, M.D., A Physician's Notes on Ophthalmology—Cases of Disease of the Nervous System in which there were Defects of Smell, Sight, and Hearing	251
2. JONATHAN HUTCHINSON, On a Group of Cases of Optic Neuritis in Children	307
3. T. PRIDGIN TEALE, Jun., Two Cases of Cysticercus in the Eye	318
4. SPENCER WATSON, Notes of Two Cases of Coloboma, and also of the Dissection of an Eyeball affected with Posterior Staphyloma	322
5. JONATHAN HUTCHINSON, Notes of Miscellaneous Cases	324
6. J. W. HULKE—1. A Case of Epithelial Cancer of the Orbit—2. A Case of Orbital Sarcoma, for completing the extirpation of which the Caustic Zinc-paste was used without injury to the Eye-ball . .	336
7. JONATHAN HUTCHINSON, Report on Cases of Congenital Amaurosis.	347
8. W. SQUARE and WARREN TAY, Cases Selected from Mr. Dixon's Out-patients	353

PERISCOPE.

1. Professor VON GRAEFE, On Extraction of Cataract—2. Drs. BLESSIG, MAGAWLY, WEYERT, and BÖRLING, Report of the In-patients treated in the St. Petersburg Eye Hospital in 1863—3. Professor ROTHMUND, Chromidrosis of the Eyelids—4. Dr. H. FISCHER, On the Origin, Spread, and Prophylactic Treatment of Trachoma—5. Dr. GAMA LABO, Brazilian Ophthalmia—6. Prof. ROTHMUND, On Sub-conjunctival Injection of a Solution of Chloride of Sodium, to promote the Absorption of Corneal Opacities—

	PAGE
7. Dr. PAUL SCHRÖTER, Case of Hereditary Irideremia, from the Clinique of Prof. Reute—8. Prof. ROTHMUND, Cases of Ischæmia of the Retina—9. Dr. COLSMANN, On a Plano-Convex Lens, with Measuring Scale for Ophthalmoscopic Investigation—10. Dr. GUN- NING, Cases of Hemiopic Contraction of the Field of Vision— 11. Mr. MARSON, On Variolous Ophthalmia—12. Prof. v. GRAEFE, The Dynamic Anomalies of the Lateral Muscles of the Eye, and of the accommodation—13. v. GRAEFE, The Treatment of Conical Cornea—14. Dr. WEGNER, Experimental Contribution to the Study of Glaucoma—15. Dr. E. WILLIAMS, Brown Citrine Oint- ment in the Treatment of Tarsal Ophthalmia and Phlyctenular Conjunctivitis—16. Dr. GIRAUD-TEULON, On the Mechanism of the Production and Development of Posterior Staphyloma, and its Connexion with Insufficiency of the Internal Recti—17. Dr. R. LIEBREICH, A Modification of the Strabismus Operation—18. Dr. TESTELIN, Amaurotic Form of Double Quotidian Intermittent —19. Dr. WECKER, The Treatment of Fistula of the Cornea	357
